Fiber optic deployment calendar
in MRC de Brome-Missisquoi

IHR TÉLÉCOM

* **The projected date for network availability** represents the **availability of the network in the street that allows the service at the address.** It does not take into account the installation because not all households will ask for the service. Once the **Network is available**, a reasonnable delay is to be expected for the installation of the services.

MUNICIPALITIES	PROJECTS	Projected date for network available*	Deployment steps					
			1-Field posts readings	2- Deployment blueprints conception	3- Work permits requested	4- Work permits received	5- Network construction	6- Network available*
